

Mac: Video Call

SKYPE
aligning technology with the learning model

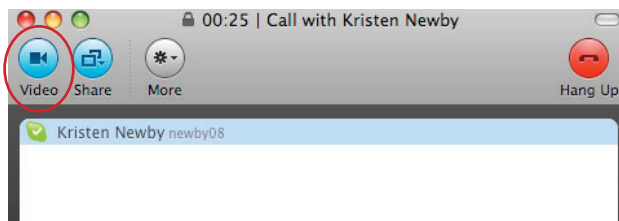

BYU
IDAHO

Objective

To demonstrate how to use video during a Skype call on a Mac computer.

Instructions

1. In the call window, select blue "Video" button.

2. The blue button will turn red and you will see yourself at the bottom of the call window. If the caller shares video, you will see them above your own video box.

3. To stop sharing video, click the red video button. The button will turn blue and your video box will disappear.
