

Course Substitution Guidelines for Electrical and Computer Engineering July 2009

Substituting Courses

Guidelines for making appropriate course substitutions are established by the CSEE faculty to maintain consistency among the advisors.

Course substitutions not listed here may be made with the approval of the department chair. They will then be added to this document. Requests made by students who are simply looking for an easier or a faster route to graduation are generally denied.

Students may not graduate under catalog requirements that are more than five years old. The general policy of the Career & Academic Advising Office is to move everyone on older catalog requirements up to at least the 2007-2008 catalog requirements.

The following guidelines are in effect:

2008-2009 Catalog Substitutions:

<u>Listed Requirement</u>	<u>Recommended Substitution</u>
CompE 250 (5)	CompE/ECE 150 (3) & 250 (4)
CompE 398 (1-6)	Normally not permitted ¹
Math 321 (3)	FDMath 224 (3)

Notes: (1) CompE 398 may not be substituted without recommendation of advisor and approval of department chair. This is seldom done.

2007-2008 Catalog Substitutions:

<u>Listed Requirement</u>	<u>Recommended Substitution</u>
CompE 250 (5)	CompE/ECE 150 (3) & 250 (4)
